# ATF flush

Ref. 1759B

12x300ml

## USE

Bardahl ATF Flush has been developed to clean the whole lubrication system of automatic gearboxes.

It is miscible with all types of ATF fluids.

## PHYSICAL & CHEMICAL PROPERTIES

Physical state	Liquid
Colour	Red
Flash point	> 61°C
Relative density	0,870 (15°C)
Solubility	Insoluble

## PROPERTIES

Bardahl ATF Flush has the following properties:

- Dissolves and removes all types of deposits (gum, varnish, sludge,...)
- Holds deposits in suspension until the oil is drained
- Ensures a perfect lubrication in the gearbox (after cleaning)
- Avoids premature wear on mechanical parts
- Cleans perfectly the entire gearbox oil system
- Extends the drain interval of the transmission fluid

## INSTRUCTIONS FOR USE

Pour the contents of the can into the transmission fluid before the draining.

Drive the car for about 15 to 20 minutes.

Drain the oil following the normal procedure.

Refill the gearbox with new transmission fluid.

## ADVISE

Pour 1 can of Bardahl ATF Conditioner in the new oil (ref. 1758B).
